

(District Name)

INFORMATION SERVICES PLAN

Collaborative Questions

- What question(s) are we attempting to answer?
- Do we have the data in question available?
- How can this data be arranged for group analysis?
- What instructional and leadership practices must we reconsider?
- How can we visually represent and communicate in writing our findings?

Formulate Question	Identify Data Source	Conduct Group Analysis	Make Decision	Create Report

Public Sharing

- What is the best method to share findings?
- Will the findings change behavior and yield the desired result?
- What is the best way to remember and share our findings so we do not "re-invent the wheel" at a later point in time?
- What new questions and understandings arise from others' ideas and assumptions?

Present Report	Evaluate Audience Level of Use	Archive Lessons Learned	Formulate New Questions
